GÉANT
connect • communicate • collaborate

Enables users from participating Research and Education federations to easily access resources and content across national boundaries

Your federation on a global stage:
eduGAIN enables users to easily access resources and content on a pan-European scale, making eduGAIN the gateway to collaboration across federations

We speak your language:
eduGAIN uses technologies already widely used by the Internet2 community and supports predominant industry standards

Global communities:
GÉANT is working closely with Internet2 towards global interoperability
